WEBCTRL® ADD-ON

SINGLE SIGN-ON (SSO) AND LDAP/AD

Automated Logic

WebCTRL Add-on

ADD-ON FOR THE WEBCTRL® BUILDING AUTOMATION SYSTEM

The Automated Logic single sign-on (SSO) and LDAP/AD add-ons in the WebCTRL® building automation system simplifies user access and enhances security. These features streamline login management, improve user experience, and bolster system security by integrating WebCTRL with your existing authentication infrastructure.

KEY FEATURES AND BENEFITS

- **Simplified Login:** Allow users to access WebCTRL with their existing organizational credentials, eliminating the need for separate logins and passwords.

- **Enhanced Security:** Leverage your existing Identity Provider (IdP) or Active Directory (AD) for robust authentication and multi-factor authentication (MFA) if supported.

- **Centralized User Management:** Manage user access and permissions from your central IdP or AD, simplifying administration and reducing the risk of unauthorized access.

- **Self-Service Password Reset**: Empower users to retrieve or reset their WebCTRL passwords through their existing IdP or AD, streamlining IT support requests.

- **Account Lockout:** Prevent unauthorized access by locking out user accounts at the IdP or AD level.

- **Multi-System Management:** Manage user access for multiple WebCTRL systems across different campuses from a single, central server.

REQUIREMENTS

WebCTRL System:

- v9.0 or later (or Cloud) with the latest cumulative patch applied

- v8.5 or later with the latest cumulative patch applied for LDAP/AD

Add-on Files and Licenses:

- 2 different add-on files - one for LDAP/AD integration, and one for OIDC or SAML 2.0 integration

- Two licenses are included with your LDAP/AD or SSO add-on purchase, allowing for flexible integration.

System Configuration:

- Regular system backups to include add-on data

- Adequate disk space to store add-on data

- Configure the SSO or LDAP/AD add-on in SiteBuilder after installation

- Follow the SSO technical instructions for your desired integration

Network:

- Network connectivity between servers for LDAP/AD

WebCTRL

The WebCTRL building automation system gives you the ability to understand your building operations and analyze the results. Integrate environmental, energy, security and safety systems into one powerful management tool that helps you reduce energy consumption, increase occupant comfort, and achieve sustainable building operations.
